More Relevant Collections and Satisfied Patrons

Identify Usage Trends to Improve Buying

Tailor Standing Orders to Usage and Buy Repeat Authors More Effectively

HERE'S WHAT LIBRARIANS ARE SAYING:

"collectionHQ helps the Phoenix Library make the best use of our resources while saving staff time. The instant access to monthly collection use is an efficient and enlightening tool for understanding customer demand and changing use patterns."

RITA HAMILTON, CITY LIBRARIAN, PHOENIX PUBLIC LIBRARY, UNITED STATES

save**TIME**

"WPL uses collectionHQ to produce reports that enable us to clean up both our catalogue and our collections. The dead stock and grubby reports are used to undertake an aggressive weeding project in preparation for floating collections. collectionHQ also provides us with analyses of popular subjects within our nonfiction collection that guides our selection."

BARBARA BOURRIER-LA CROIX, COLLECTIONS LIBRARIAN, WINNIPEG PUBLIC LIBRARY, CANADA

save**MONEY**

"Cornwall Libraries has been using collectionHQ to manage stock since 2007. It is particularly useful in identifying non-issuing stock in self-service libraries, allowing us to transfer items to other branches and maximize the budget spend."

LINDA MOFFATT, STOCK TEAM LEADER, CORNWALL COUNCIL LIBRARIES, UNITED KINGDOM

"With collectionHQ, we can confidently plan our collection management calendar well in advance, knowing that all our actions are based on an evidence-driven method that has one aim — to improve our collections."

JACKIE HOWELL, COLLECTION DEVELOPMENT LIBRARIAN, DUNEDIN CITY COUNCIL LIBRARIES, NEW ZEALAND

improve**PERFORMANCE**

"collectionHQ helps us steadily improve our collection management practices. As a result of using collectionHQ, we are already seeing improvements in our collections. Additionally, it helps streamline the budgeting and transfer process, making it a more efficient and effective process for the library."

EMILY BRAITHWAITE, COLLECTIONS AND INFORMATION SERVICES COORDINATOR, WYNDHAM CITY LIBRARY SERVICE, AUSTRALIA

World's leading collection improvement solution that saves time, saves money and improves performance.

www.collectionhq.com

The library world is rapidly evolving. To keep up with the latest trends, your library needs an established collection improvement solution that fits into your schedule and makes your collection work better for patrons.

collectionHQ is that solution.

- + Fully-hosted Web application accessible via your browser on a standard PC.
- + Longest-serving collection improvement software in the world.
- + Goes way beyond simple reporting and provides evidence-based action plans that fit into your workflow and streamline tasks.
- + Completely ILS/LMS neutral and is the only product that will retain evidence of your circulation history, even if you change vendor.
- + Only revolutionary tool to deliver a comprehensive analysis — including trend analysis — throughout North America, Australasia and Europe.
- + First resource to provide libraries with the opportunity to monitor ebook circulation in comparison to print.
- + Technical support, upgrades and service charges are included in the annual subscription fee, so no hidden costs.

The only solution based on the proven Evidence-based Stock Management methodology (EBSM).

For years collectionHQ has been transforming how libraries work, providing the tools required to improve collections efficiently and effectively.

THE FUTURE OF COLLECTION DEVELOPMENT

When resources are tight and spending collection dollars wisely is vital, libraries need a streamlined collection development process that ensures they have the titles they need, when and where they need them.

ESP* — Evidence-based Selection Planning — brings the *art* of Baker & Taylor's collection building expertise together with the **SCIENCE** of collectionHQ's data analytics, to create a predictive tool which equips your library with the right titles and quantities, at the right locations.

ESP will innovate collection development in libraries by:

- + Automating the purchasing of new materials with collectionHQ and Baker & Taylor, supporting end-to-end selection.
- + Equipping your library with the right current and forthcoming titles — in the right quantity and locations.
- + Delivering evidence-based spending plans within your budget.
- + Using sophisticated and flexible predictive analytics which can forecast selection at a title, author, subject, series, format and branch level.
- + Saving time, reducing wasteful purchases and tracking performance.

*A service provided by Baker & Taylor, its subsidiaries and strategic partners in selected markets around the world.
