Insight

JANUARY 2015

Welcome

Happy New Year!

2014 was a huge year for the team at collectionHQ. We launched our very own "Community" and we used cutting edge web technology to carry out collectionHQ's biggest release to date. Find out more here.

In January, collectionHQ was launched into the German public library market with our partner, "ekz". We also welcomed 100 new customers to collectionHQ over the course of the year.

In late 2014, the winner of our "Got Grubby" competition was announced as Whitchurch-Stouffville Public Library, Ontario. We had so many creative entries that it was difficult to pick just one! Check out the photos here.

This year, our team looks forward to releasing more product enhancements and meeting with public libraries worldwide at our events. Click here to find out when we will be in a town near you.

Finally, on behalf of everyone at collectionHQ, I'd like to thank our readers for your support last year and wish you a successful 2015!

B. Scott Crawford, Vice President General Manager, collectionHQ.

Product News

We appreciate feedback from those who know our product best: the collectionHQ customers. That's why, in Spring 2015, we will add a new Scheduling tool to collectionHQ. This enhancement will help our users carry out collection management tasks more efficiently than ever. Click here to read more about Scheduling.

Customer Success Story

We caught up recently with Mary Cohen, Technical Services Department Head at Palos Verdes Library District, CA, U.S.A.

Mary shared some thoughts on her collectionHQ experience so far: "The feedback (from staff members) is very positive; they love using the software and especially the transfer function."

To read Mary's case study, please contact more.info@collectionhq.com or click here

to discover more customer success stories.
