# Welcome

---

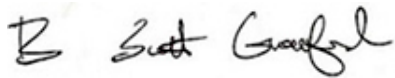

Greetings and welcome to the latest edition of Insight!

This edition features news of our recent Discovery enhancements and the latest circulation trends in Top Charts.

As we enter a new fiscal year, we look forward to working with the 118 customers who have joined collectionHQ since July 2014 and ensuring that each of our subscribers continue to achieve the most out of our evidence based solution.

In other news, the team is just back from a packed ALA Annual Conference in San Francisco where we were delighted to catch up with many of our customers and partners from the library world. Check out our [blog](#) to find out more about our ALA Customer Forum and Big Data Luncheon. Elsewhere, we are excited to announce the launch of a new series of customer Forums at 3 key locations in the U.K. - find out more by clicking [here](#).

Thanks for reading and enjoy our latest news!

B. Scott Crawford, Vice President General Manager, collectionHQ.

## Product News

---

We recently introduced a number of performance enhancements to collectionHQ's Discovery tool including a brand new User Interface which makes it simpler to identify top titles on a local, regional and national level, and assess whether your library has a suitable supply of these items. Log in to Discovery today to see the enhancements for yourself!

In other news, our new [Scheduling tool](#) has already proven to be instrumental in helping librarians to plan and manage tasks.

## Customer Success Story

---

Recently we caught up with Cari Dubiel, Digital and Learning Services Manager at the Twinsburg Public Library, Ohio. Cari revealed how using collectionHQ's Discovery tool has supported Selection, helping especially to identify "those items that weren't so obviously popular with patrons."

To request a copy of the Twinsburg Public Library case study, contact us at [more.info@collectionhq.com](mailto:more.info@collectionhq.com).

More case studies can be found on our [website](#).
