

collectionHQ Diversity, Equity and Inclusion Analysis

The collectionHQ Diversity, Equity and Inclusion (DEI) Analysis module is the first step in identifying titles to consider for a DEI Audit, by using an evidence-based approach.

Here are some tips and tricks to help you understand and get more from this insightful tool.

1. HOW ARE TITLES BEING CLASSIFIED AS DEI?

There are multiple data points and sources that collectionHQ considers to classify a title as DEI. These include:

1. Kirkus Diversity Collection Selection Lists.
2. Baker & Taylor Librarian Reviewed.
3. BISAC (Level 1, 2, and 3) matching to a DEI Topic.
4. Library of Congress subject headings.
5. You can now self-classify items you feel belong in a DEI Topic.

Titles may have one or more of these five data points indicating their reference to a DEI Topic as illustrated in the example below.

	BISAC	Disabilities & Neurodiversity, Mental & Emotional Health	FAMILY & RELATIONSHIPS / Children with Special Needs	FAMILY & RELATIONSHIPS / Education	PSYCHOLOGY / Psychotherapy / Child & Adolescent
---	-------	--	--	------------------------------------	---

2. COLLECTIONHQ OFFERS THE ABILITY TO VIEW THE DEI DASHBOARD IN DIFFERENT WAYS

Items vs. Titles

The number of items (barcodes) is the default view and counts every copy of every applicable title. This allows libraries to focus on the different needs of local communities within their library system.

The number of titles counts each unique title once, no matter the number of copies owned. This allows for the analysis of depth versus breadth of DEI material.

Percentages vs. Totals

The dashboard will present the total count of items (or titles if you are viewing DEI by title) and can be changed to show what percentage those items (or titles) make up of that collection area. To change this view, simply click on the toggle found to the upper right-hand corner of the screen.

3. DRILLING DOWN TO MORE DETAIL

Export to CSV

Click on a number within the 'DEI Topics' table to drill down to the screen below. From here, you can export your DEI items within that topic to a CSV file for analysis.

Adult Non-Fiction ✕

Asian

Branch	DEI Topic Items	Other Items	Export DEI Items
Total	The library branch name	187,700	
Library A	36	4,572	
Library B	42	5,803	

View by branch

Click on the branch name or the number in the 'DEI Topic Items' column to see a detailed report of the DEI items as illustrated below.

4. MONITOR CHANGES OVER TIME

DEI Trend view allows you to monitor changes in your library's provision of DEI material over time from a date that can be set in DEI Administration.

5. CUSTOMIZING YOUR DATA

If you have either an Admin or DEI Admin role in collectionHQ, you will be able to:

1. Click on the DEI Topic and exclude it from the analysis. When you exclude a title, it is excluded from the entire library system along with anything attached to the BIB record. This information will be updated with your next dataset, or you can go to Administration > Common Tasks > Report Regeneration and it will take 24 hours for the changes to take place.
2. Upload barcodes and attach them to a DEI Topic. Please refer to the DEI help in Academy for more information.
